

Military Funeral Arrangement Assistance

Having lost two husbands, I know how distressing and emotional life can be at such times. Both were military veterans; I arranged for both their burials at national cemeteries. I was honored to make these arrangements for them.

With this experience, I would like to offer my assistance to those of you who have lost loved ones you wish to have interred at a military cemetery with military honors.

I will not charge for this assistance, but would accept a gratuity.
